McAfee IntruShield

Additions:

1. IntruShield products are sold as turn-key appliances and do not specify software version of the product. New SKUs are to introduce the concept of using \$0.00 Token SKUs to help Manufacturing deliver the correct software version when fulfilling Intrushield orders. These token SKUs will control version of firmware/software for IntruShield products to be shipped. A PO must include one and only one version SKU. All items included in that PO will be shipped with that version – section 57.
ITV_TOKEN_1-8 - IntruShield Release 1.8
ITV_TOKEN_1-9 - IntruShield Release 1.9.

Changes:

1. Section 45 – McAfee IntruShield Starter Manager Software section - PRODUCT CONTENT notes associated with SKUs in the IMT McAfee IntruShield Starter Manager Software section (SKUs: IMTCUE-AD & IMTYCM-AD) has been updated to reflect “The Starter Manager License is a Perpetual Software License with 90 day Priority Support bundled. This License is offered for free (\$0.00) to customers that have purchased McAfee IntruShield Appliance. This Starter Manager Software License can manage up to two (2) IntruShield sensors of any kind. Customers purchasing Starter Manager are required to purchase support on that product which is available at additional cost. [To manage more than two (2) sensors, offerings are available at a charge: IntruShield Manager Software - supports up to a total of six (6) sensors; IntruShield Global Manager Software - supports an unlimited number of sensors].”
2. Deliverable IMS10E has been deleted from mention in the IMS McAfee IntruShield Manager Software section. This deliverable is part of the accessory kit that is within the appliances/sensors that are shipped. NAI does not ship a separate IMS10E software kit; the appliance is shipped. When a software kit is shipped separately as a upsale, the IMG10E is shipped.
3. The following offering has had a name change: ITVYDM-AD (IntruShield PrimeSupport Enterprise Secure Plus). This offering is in Section 70.

5 ENM - McAfee/Entercept Management Server & Agent Products

(1) Console and management server are used interchangeably (Console is used for 2.x, Management Server is used for 4.x. Console in 4.x is the client GUI). (2) Agent products do not have management capabilities, they need to report to a license Management Server, and need licenses themselves. (3) When agents are purchased, it is required to identify on the order what management server computer name they are assigned to so the appropriate license key file can be generated. Purchase Orders must include the server name. (4) A 2.0 Console supports up to 250 agents and a 4.x Console supports up to 5000 agents. When the agent limitation is reached, customers must purchase additional management server license products. (5) PrimeSupport is required for every license purchase and should be prorated to co-terminate to a common end date. (6) 2.0 versions: EOL Dec 31 2003. Available for existing 2.0 customers who wish to purchase additional agents. (7) Customers interested in upgrading must trade in their existing agent license key files in exchange for the new upgraded license key files. Upgrades provide the additional agent
